Corporate
Profile

Your Provider of Choice

The Family Health Centers of Georgia, Inc. (FHCGA), is a not-for-profit, 501(c)3, federally qualified community health center. FHCGA is NCQA Recognized Level 3 and Accredited. FHCGA is the first community health center in Georgia and the second in the Southeast to be accredited by The Joint Commission as a Primary Care Medical Home. FHCGA has been providing comprehensive primary healthcare services since 1975. FHCGA serves more than 22,000 patients annually, generating more than 50,000 patient visits.

Our Mission

The mission of The Family Health Centers of Georgia, Inc. is to provide high quality patient centered healthcare with a commitment to excellence.

Why choose a community health center? Why make FHCGA your provider of choice?

The Family Health Centers of Georgia, Inc. is one of more than 1,375 Federally Qualified Community Health Centers (FQHC) operating in the United States. FQHCs use healthcare delivery systems that have proven successes with improving healthcare outcomes and reducing the cost of medical services. Recent studies found that patients who regularly use community health centers, like FHCGA, have lower total annual healthcare costs when compared to patients who use other primary care providers, such as HMOs, hospital outpatient units or private physicians. These studies show that the cost associated with using a community health center is 22% to 33% less expensive, on an average, than using other healthcare models.

The managed care environment that community health centers create increases accessibility to primary care physicians and disease management programs for Medicaid and Medicare patients. Many uninsured Americans have access to health insurance as a result of the Affordable Care Act (ACA). However, many US residents do not qualify to participate in the ACA Health Insurance Marketplace or find the cost of the health plans offered in the Marketplace unaffordable. FHCGA offers a Sliding Fee Scale Program in which the fees for services are based upon meeting federally established income guidelines. FHCGA's Sliding Fee Scale Program provides an alternative payment option for uninsured and under-insured patients to receive quality medical services.

You find your medical home when you choose The Family Health Centers of Georgia, Inc. You select an integrated team of healthcare providers who are either board-certified or board-eligible. Our professional team will work with you to address all of your medical needs.

Our Commitment

- Offer our patients same day appointments
- Provide access to healthcare during evening hours
- Address healthcare concerns after normal business hours
- Offer 24/7 access to make an appointment or get medication refills, referrals, lab results, or medical advice
- Use medical standards that are nationally approved by the Centers for Disease Control (CDC) and other accrediting organizations
- Focus our medical care around each patient and each patient's family
- Offer community resources to address all of our patient's healthcare concerns
